In the Rate Books, Land held in Common or Joint Tenancy is, except in the Five foregoing Instances, entered after this Manner:—'Thos. EDENDERRY:—

(Col. 8.) - Gardens included, not being sufficiently distinguished.

(Col. 30.) - Number of Persons holding in Common or Joint Tenancy, 31; namely,—

More than 10 Acres and not more than 20 Acres		8
— 20 - - -	50 —	9
— 50 - - -	100 —	6
— 100 - - -	200 —	6
— 200 - - -	500 —	2
		31 Persons.

ENNIS:—

(Cols. 5. 8.) This includes Persons occupying Houses or Cottages with Gardens, the Clerk having no Means of ascertaining the Number of those Persons. "The Description of the Property given in the Rate Books being 'House and Land,' and not 'Gardens,' I have asked the Valuator whether he could give me any Assistance in making out this Return; he could not, but said he considered that the Numbers entered in Columns 8 and 9 were chiefly of that Class, and perhaps a Portion of those in Columns 10 and 11."

(Col. 30.) - These 2,640 Persons are not included in the preceding Detail of Classes of Persons holding Land. The Clerk says, "I will point out a Case similar to a great many in this Union:—20 Persons hold a Farm of 200 Acres; they graze this in common; one Portion of the 20 have 5 Cows each on the Farm, another Portion have 3, another Portion have 2 Cows and a Yearling, and another Portion have 1 Cow and 2 Yearlings (3 Yearlings, or a Two Year old and a Yearling, are considered here equal to a Cow when grazing). It is by this System of Farming they settle their Rents and Taxes, and not by any Measurement of Acres, as neither of them know the Quantity they are entitled to hold. The Average of the Holdings, if apportioned amongst the Tenants in common, would be nearly 16 Acres to each. These Holdings are chiefly in mountainous Districts, which accounts for the Average being so great."

ENNISCORTHY:—

(Col. 30.) - It appears that 43 Persons hold in Common or Joint Tenancy 18 Holdings; namely,—

More than 1 Acre and not more than 2 Acres		2
— 2 - - -	3 —	1
— 3 - - -	4 —	1
— 4 - - -	5 —	2

		18 Holdings.

ENNISTYMON:—

(Col. 8.) - The Return includes the Number of Persons holding Houses with Gardens not exceeding 1 Acre, which are not sufficiently distinguished to be entered separately.

FERMOY:—

(Col. 8.) - Of the total Number whose Holdings do not exceed 1 Acre, it is stated that 4,928 hold Houses and Gardens only. The Land attached to each varies from 6 to 10 Perches.

(Col. 31.) - The Number of Holdings in Common or Joint Tenancy is 39, included in Columns 14, 17, 20, 21, 22, and 23. Number of Persons so holding not ascertained.

GALWAY:—

(Col. 30.) - The 32 Acres in Common or Joint Tenancy are held by 3 Persons included in the Total in Column 4.

GLENTIES:—

(Col. 4.) - "The Valuator did not return any Person in possession of a Garden only, he returned all the People as Occupiers of Houses and Land; consequently, I cannot obtain the Number of Persons holding Land exclusive of Gardens."

There are also 283 Landholders, the Extent of whose Holdings has not yet been entered by the Valuator; they are included in the total Number holding Land, but cannot be included in the respective Classes in the other Columns. The Valuation is not yet finally completed, and therefore the Return as to this Union may not be strictly accurate.

GOREY:—

(Col. 31.) - The Classes in which the Holdings in Common or Joint Tenancy are included is not stated in the Clerk's Return; the Number of Persons so holding, namely, 60, is included in Column 4.

GORT:—
(Col. 31.) - The Number of Persons holding in Common or Joint Tenancy is returned as 2,834, and they are included in Columns 4, 7, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19; but the Number in each Class is not stated.

GRANARD:—
(Cols. 4–8.) In these Columns "there are 735 Persons included who are Occupiers of Houses in Towns and Villages, also Cottiers in the Country, all of whom have only Gardens attached to their Houses."

KENMARE:—
(Col. 6.) - "I am not aware that there are Persons occupying Houses and Gardens only, without other Land; but I could not state as a positive Fact that there are not such Persons, from any Document to which I have Opportunity of Reference; neither do I think it could be exactly ascertained, without great Expense; but I am of opinion that the Number is very small, if any."

(Col. 30.) - "The Number of Persons holding Land in Joint Tenancy is included in Column 4; but I have no Means of ascertaining the Proportion of those who do from those who do not. The Arable Land is in all Instances divided, and each Occupier's Proportion distinguished; but it is not so with respect to Waste Land or Mountain, which is held in common by the generality of such Occupiers; and there are few Instances where an Occupier of Arable Land has not a Right of Pasturage on the Waste Land or Mountain."

KILKEEL:—
(Col. 30.) - "The Number of Persons holding Land in Common or Joint Tenancy is 27. This does not include the Mountain Land so held, as the Landlords allow their Tenants in the Lowlands to occupy it in common for grazing. The 3,680 is nearly all Mountain Land."

KILKENNY:—
(Col. 8.) - Gardens are included in Column 8, the Numbers not being sufficiently distinguished to be accurately separated.

KILLARNEY:—
(Col. 8.) - Some Gardens are included in this Column.

(Cols. 29, 30.) The Clerk states, that the Number of Acres held in Common or Joint Tenancy is "about 166,172 Acres, or Two Thirds of this Union." "This Reply was made solely according to Opinion, the Valuation Books affording no Information on the Subject. I know that Joint Tenancy prevails

However, previously to making out the Return, I consulted Persons having Experience and Information; and they considered that my Estimate, of Two Thirds of the Union being so held, was a fair one." He is unable to state the Number of Persons holding in Common or Joint Tenancy. "Such Persons are included in the Number 6,946 (Column 4.) collectively, but principally refer to Replies in Columns 18, 19, 20, 21, 22."

KILMALLOCK:—

(Col. 31.) - The 1,121 Persons holding Land in Common or Joint Tenancy are included in the respective Classes in the other Columns, but the Numbers in the Classes are not separately set forth.

LETTERKENNY:—

(Col. 8.) - Those who occupy Houses and Gardens, or Cottages and Gardens, are included.

(Cols. 30, 31.) There are 1,198 Joint Occupiers that cannot be classed, and are not included in the Detail of the Return, as the Valuation merely gives the gross Quantity of each Joint Holding, without specifying the Portions held by each Person: they are included in the Total (Column 4.) There are also 1,168 included in the Answer in Column 4; many of them consist of Persons holding only Houses and Gardens.

LIMERICK:—

(Col. 8.) - This Number includes Gardens.

(Col. 29.) - "The Number of Persons holding in Common or Joint Tenancy is 925, included in Column 4."

LISBURN:—

(Cols. 4, 8.) - "The Return includes in the Number of Persons holding Land, all that Land is to their Name in the Rate Books, even to a few Perches; consequently, the Persons holding Houses or Cottages, with Gardens only, are included in reply to Query, Column 8. I consider that the total Number, 1,586, consists of such Persons, which will reduce the Number of Persons holding Land exclusive of Gardens to 7,453."

(Col. 29.) - With respect to the Number of Acres held in Common or Joint Tenancy, "I have no Means of ascertaining it, as the Rate Books do not state any such; nor do I think there are any in this Union; and such also is the Opinion of the Agent to this Estate, whom I consulted."

LISNASKEA:—

(Col. 30.) - The 754 Persoos holding Land in Common or Joint Tenaocy are iocluded in the Answers in Columns 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21.

LISTOWEL:—

(Cols. 29–31.) "As to the Number of Acres held in Joint Tenancy, it cannot be ascertained from the Valuation Books. The Number of Persons holding Land jointly, so far as the Valuation Books show, are 461, being the immediate Lessors jointly of Persona holding Houses and Gardens uoder them; and those Persons for their own Farms are included in the Answers in Columns, 18, 19, 20, 21, 22, and 23 respectively; that is to say, some of them in each. To give the Number of Acres held jointly by those 461 Persons would be of no ovail, as it is only, as already stated, the Houses ond Gardens occupied by their Labourers. I am well aware, from my owo Knowledge of the Locality, that several Persons bold large Farms jointly, notwithstanding their beiog separately valued in the Books, which can only be ascertained by employing a competeot Person to go through the Union for that Purpose, if it be necessary to have the Number of Acres beld jointly."

LONDONDERRY:—

(Col. 31.) - "There are only 8 Persons appearing on tbe Rate Books as bolding in Common or Joint Tenancy, and they have been included with the total Number of Persoos holding Land (Column 4.) Tbey bave also been included in the subsequeot Answers, wherever the Query required that the Quantity of Acres held by them should appear. The Valuators of the Unioo were required to amend their Valuatioo in respect to Joint Holdings, it being the Opinion of the Guardians ot the Time that each Person's Name should appear separately on the Rate, with tbe estimated Quantity of Land he then held; the Valuotors therefore were obliged to apportion Joint Holdiogs, both in Quantity aod Value, and the few now appearing have beeo so returned by tbe Collectors since the Valuation was made."

(Col. 30.) - With respect to Column 30, "I find, on reference to the original Valuation Books, from which the Return of the Number of Acres was token, that 1,382 appears to be the Number of Persons holding Laod in Common or Joint Tenoncy; and those Persons are spread over the several Queries on the Return given. As the revised Valuation Books from which the Return was made do not distinguish Joint Tenancy, the Direction of the Guordians to the Revisor being, that all Joint Tenancies nnd Teooncies in Common should be divided, aod each Person put down in the Valuation Book for the Portion held by him, or the Portion from which he derived Benefit, I therefore cannot state to which of the Queries the totol Numbers beloog, but all is included in the Answer in Column 4."

LOWTHERSTOWN:—

(Col. 6.) - There are 320 Persons in this Uoion, residing in Towns and Villages, whose Holdings ore less than One Acre, but are chiefly Houses with small Gardens attoched thereto, ond at different Grades of Value, from 20*l.* down, but which I did oot think proper to include in tbis Return of Persons holding Land; besides, the Holdings in Towns, although less than One Acre, could not be properly classed with those in Columo 7, which are generally of very little Value, ond let to Labourers through the Country.

(Col. 29.) - The Clerk states that "there are no Persons holding in Common or Joint Tenancy in the Union, Common or Joiot Tenancy not being practised in this Union."

I have made Inquiry of the Revising Valuator, and he states that there are several under this Head holding in Common, but that they have been charged separately, in order that each Occupier may be liable only for his own Amount of Rate. I only found Two on the Books; One under Column 21, and One under Column 22. The Revising Valuator stated there are several, but I have no Means of knowing the Number."

NEW ROSS:—

(Col. 25.) - The Holdings greater than 2,000 Acres and not greater than 3,000 Acres, "Mountain."

NEWRY:—

(Col. 8.) - This Return includes in Columns 6. and 8. such Persons as occupy Houses or Cottages with Gardens only, without other Land.

"The Number of such Persons holdiog Gardens attached to Houses in Towns, I find on Re-examination to be 580; this Number deducted from 1,065 (the Answer in Column 8.) leaves 485, which latter is the Number of Persons having Cotter Houses with small Portions of Land. Such Holdings are usually denominated in the Rate Books, 'House and Land,' but sometimes 'House and Garden,' which Distinction is apparently arbitrary or accidental, as there are frequent Instances in which they are described as 'House and Land,' although the Quantity of Land does not exceed Twenty Perches."

(Col. 23.) - Greater than 500 and not greater than 1,000:—"Three of these consist of Bog and Mountain, of small Value."

(Col. 24.) - Greater than 1,000, not greater than 2,000:—"Chiefly Bog and Mountain."

(Col. 31.) - "The Number of Cases of Joint Tenancy is 70, and the Number of Persons so holding Land in Common or Joint Tenancy is 152."

NEWTOWNARDS:—

(Col. 8.) - The Number in this Column includes Gardens. The Clerk states "it does contain Holdings by Persons who occupy Houses with Gardens only, without other Land, and these are included in the Answer to Query in Column 8, amounting to 3,028." That Number has been separately entered in Column 6. accordingly.

PARSONSTOWN:—

(Cols. 29, 30.) In these Columns are included 1,011 Persons in this Union holding 19,385 Statute Acres of Land, and there is no Means of ascertaining from the Rate Books the Quantity of Acres each of those Persons holds, being rated in Common under Leases subdivided more or less; there are Instances where Parents with Eight or Nine in Family are rated for 30 or 40 Acres of Land; it is not possible to ascertain from the Rate Books the Numbers of Acres the Heads of the Family kept in their Possession, or the Quantity so subdivided amongst them.

ABSTRACT OF NOTES—*continued.*

RATHDOWN:—
(Col. 3.) - Besides the Number 2,130, returned in Column 4, and Column 8, "There are 2,449 Occupiers of Houses and Cabins, most of which have either small Gardens or Yards attached; but, there being no Quantity of Ground specified on the Rate Books, they are not included in the 89,172 Acres."

(Col. 8.) - See Note on Column 3. "The Number of Persons having Gardens without other Land," is returned as 2,130, irrespective of the 2,449 above mentioned. Upon this Number, 2,130, the Clerk observes, "before answering the Query I availed myself of the Knowledge and Experience of the local Revising Valuators and Collectors, and I find that there are 4,579 Persons who occupy Houses and Cottages with Gardens or Yards only, of which only 2,130 are included in Answer (Column 4.) for the Reason specified above."

RATHDRUM:—
(Cols. 30, 31.) Number of Persons holding in Common or Joint Tenancy not specified.

RATHKEALE:—
(Col. 6.) - "I am unable to ascertain from the Valuation Books the Number of Persons who occupy Houses or Cottages, with Gardens only, without other Land, as there is no Distinction made in the Books between Land used as a Garden, and Land used for the ordinary Purposes of Agriculture, the Entry in the Column headed 'Description of Property rated,' being 'House and Land,' or 'House and Demesne;' in fact, the Word 'Garden' does not occur in the Valuation Books at all. I am inclined to believe, that in making the original Valuation, the Valuator very seldom took notice of Land used as a Garden for Vegetables, when the Person occupying the Premises to which such Garden belonged did not occupy any other Land."

(Col. 31.) - "The total Number of Persons occupying Land in Common or Joint Tenancy is 1,052; and such Persons are included in the Number of Persons holding Land, in the Answer to Query in Column 4, and also in the Answers to all the other Queries, except in Columns 23 and 24, which include Persons holding separately only."

SCARIFF:—
(Col. 31.) - The Clerk states the Number of Persons holding in Common or Joint Tenancy is 4,048, included in Column 4, and in the respective Classes in the other Columns; but the particular Divisions in which they are included are not specified.

SHILLELAGH:—
(Col. 30.) - The Clerk states that there are no Persons holding in Common or Joint Tenancy in the Union.

SKIBBEREEN:—
(Col. 31.) - The Number of Persons holding Land in Common or Joint Tenancy is, as well as can be ascertained from the Rate Books, 2,814. The Number cannot be accurately known, because there are many such Entries as "A. B. and Partners, 60 Acres," the Names or Number of Partners not being given; such Persons are included in the Answer to Query in Column 4, and in all the others to Query in Column 19 inclusive.

STRABANE:—
(Col. 8.) - This Number is stated to include "Cottages with Gardens only."
(Col. 30.) - Number of Persons holding in Common or Joint Tenancy, 822; namely,—

ABSTRACT OF NOTES—*continued.*

STRANORLAR:—

(Cols. 29, 30.) The Clerk's Return of the Number of Acres held in Common or Joint Tenancy is 5,180; and he says, "the Answer to this Question cannot be depended upon as correct, as in many Instances a Quantity of Acres is marked in Valuation Books as being held in Common, whereas each occupies a distinct and separate portion. 135 individuals are returned in Valuation Books as holding the Number of Acres stated."

SWINEFORD:—

(Col. 8.) - - The Clerk states, as to the Number of Persons holding Land not exceeding One Acre, that "the Number of such Persons as occupy Houses or Cottages with Gardens, without other Land, is 980, which are included in the Answer to Queries in Columns 4 and 8; it may be well to observe that the greater Number of which include Houses and Gardens in Towns."

(Cols. 29, 30.) "The Number of Acres held in Common or Joint Tenancy is obtained from the Collectors and other Persons, more than Half the Union being believed to be so held. The Number of Persons so holding in Common or Joint Tenancy is 6,473; such persons have been included in Answer to Query in Column 4, and in Answer to other Queries from that to Column 19; where the Holdings varied in Size, they were included accordingly in Answers to corresponding Queries."

THURLES:—

(Cols. 4, 8.) - "Include all Persons set down in the Valuation Books as holding any, even the smallest Quantity of Land. As no Distinction is made in Valuation Books of Union of Land held as Gardens or otherwise, it would be very difficult for me to specify the Number of Persons holding Land exclusive of Gardens, or Gardens exclusive of other Land."

(Col. 31.) - The Number of Persons holding Land in Common or Joint Tenancy are, as set down in Valuation Books, 1,079. I have included those Persons in Answer to Query in Column 4, and some are included in Answer to each Query from Column 9. in Return to Column 23."

TIPPERARY:—

(Cols. 6–8.) In reply to an Inquiry as to these Numbers, the Clerk states, "that the Return includes Persons having Gardens without other Land. The Number of such Persons is 802, and included in Query in Columns 4. and 8."

(Col. 30.) - Number of Persons holding in Common or Joint Tenancy, 177; namely,

TRALEE:—

(Cols. 29, 30.) Number of Acres held in Common or Joint Tenancy, and Number of Persons so holding, cannot be ascertained, "as the Clerk has no Record that would enable him to answer the Inquiry. Wherever Lands were held 'in Common,' the Valuator subdivided by Computation or Estimate, and gave in his Books in that Form."

TRIM:—

Note by Clerk.—"In my Return of Persons holding Land are included all Occupiers who have any portion of Land entered opposite to their Names in the Valuation of the Union, under Head 'Estimated Extent, Statute Measure.'"

"The Return includes Persons having Gardens without other Land; and it appears to me that there are 690 of this Class; namely, 645 entered opposite to Queries in Column 8, and 45 of those in Column 9, assuming that a Cottier's Garden does not exceed 3 Roods, or 1 Acre 35 Perches, Statute Measure. There are 76 Persons holding Land in Common or Joint Tenancy, exclusive of the following:—

	A.	R.	P.
Occupiers of Police Station - - -	0	3	10
Royal Canal Company - - - -	8	0	15
Thomas Ward and Sons - - - -	15	0	29
M'Evoys (Minors) - - - - -	20	0	0"

These last are reckoned as 4 in Column 31.

TULLAMORE :—

(Cols. 4, 8.) "I have included in this Number all Holdings in the Rural Divisions of the Union which were under 1 Acre, and have only excluded from my Return Gardens attached to Houses in the Town ; the small Holdings in the Country I did not consider as Gardens, as the Persons holding them have no other Land in their Possession."

(Cols. 30, 31.) "The Number of Persons holding Land in Common or Joint Tenancy, 50." Each Joint holding is counted in answer to Query (Column 4,) as One Holding, and is also included as One in its proper Grade ; for instance:

A.	R.	P.	
25	3	20	John Daly. Edward Daly. William Daly.

"This Holding is set down as One in the Number '7,274,' and is also included as One in '1,048,' being a Holding greater than 20 Acres, and not greater than 50."

WATERFORD :—

(Col. 3.) - "The Copper Mines at Knockmahon in the Electoral Division of Kilbarrymeadow, net annual Value 5,000 *l.*, are not included in the Area returned, as no Acreage or estimated Extent appears on the Rate Books."

(Cols. 4. 8.) "I did not include any Persons holding a Garden only, unless you call those Persons holding under One Statute Acre 'Occupiers of Cottages with Gardens only.' That Description of Persons generally grow Potatoes and Cabbage, and in most Instances, Potatoes only. Such Land is usually denominated 'Potato Garden.' All such Persons in the Union I have included in the Return." (Columns 4. 8.)

WESTPORT :—

(Col. 30.) - "I have included the Number of Persons holding in Common or Joint Tenancy in the Answer to Query (Column 4). The number of such Persons I cannot ascertain, unless I went on the Lands ; the Leases contain the Name of One Person and Co. only."

WEXFORD :—

(Cols. 29–31.) "As to Acres held in Common or Joint Tenancy, and the Number of Persons so holding, the Clerk states "there may be a few in this Union, but the Number cannot be ascertained from the Rate Books."

Note on Column 2.—Population.

The Total Population of Ireland in 1841, according to the Census Report, was 8,175,124. The Total Population of the Unions here entered is 8,174,029, being 1,095 less than the Number given by the Census. The Difference arises from the Difference of Names of Townlands in some Instances, which has prevented the Return of Population here given from being made to agree with the Total in the Census Report, from the Difficulty of identifying the small Divisions in those Cases.

Poor Law Commission Office, Dublin,
12th July 1845.

ARTHUR MOORE,
Chief Clerk.
